Simple Email Service

- Amazon Simple Email Service is an email platform that provides an easy, cost-effective way for you to send and receive email using your own email addresses and domains.
- Quotas: [Click Here](#)
- Regions: [Click Here](#)

Simple Email Service

- Go to SES Service
- Click on Create Identity
- Select email address
- Enter our email address
- Click on Create identity
- Go to our email

Simple Email Service

- Click on the link & verify the email
- Click on Send Test Email
- Select scenario as custom
- Enter custom recipient (Our Email Address)
- Enter Subject
- Enter body

Simple Email Service

- Click on Additional Configurations
- Click on Send test email
- **Note:** To send bulk emails, you use either the SMTP interface or the API.
- Go to Account Dashboard for SMTP Details
- In Wordpress we have some plugins to send emails using SMTP.
- Check our daily email usage
