# Billing Alarm

- We can monitor your estimated AWS charges by using Amazon CloudWatch. When we enable the monitoring of estimated charges for our AWS account, the estimated charges are calculated and sent several times daily to CloudWatch as metric data. Billing metric data is stored in the US East (N. Virginia) Region and represents worldwide charges.

# Billing Alarm

- Go to My Account
- Click on my Account
- Click on Billing Preferences
- Check Receive billing alerts
- Click on save preferences
- Change region to N. Virginia

# Billing Alarm
